

“If all it took was reading a book, we would all be great leaders.”

## The Leadership Mindset Coaching Program

Leading people well isn't something that comes naturally for most of us. Great leaders got there through building a mindset of awareness, focus, effort, and a willingness to grow. The fact is we all need a coach.

Whether you lead a team or just need to influence people, it's critical that we as leaders are performing at our highest level. Everything we say as a leader is spoken through a megaphone and everything we do is seen under a microscope. Our attitude and our actions impact our organization every minute of every day.

Unless we stop and take an objective look at ourselves and our approach to people we may never know about the blind spots and pitfalls that can impact our results.

This co-creative insightful experience will give you insight into new ways of thinking and doing that will get you extra-ordinary results.

The **Leadership Mindset Coaching Program** is simple:

- See where you are currently
- Identify growth opportunities
- Chart the course to get there

The format is flexible depending on how you learn and grow best. And we make it happen through hyper-focused 1-1 conversations that get you results immediately.

What will you get:

- Increased self-awareness
- Understanding your impact on others
- Advanced EQ
- Agility and resiliency
- Greater self and team efficiency

Bonus: A happier life in AND outside of work

1 hour every two weeks for 6 sessions.  
\$1000
